**THE DEATH OF TUTANKHAMEN EGYPT, THE LAND OF  
PYRAMIDS AND GREAT CIVILIZATION, HAS EVER REMAINED  
A COUNTRY OF A MYSTERY**

The early Egyptian  
remained a home

one example of such event which has been puzzling laymen and scholars uniformly and delivering multiple disputes and discussions is none other than the death of the young pharaoh, Tutankhamen. Up to now, various theories have unravel the riddle following the demise of Tutankhamen. Some people believe Tutankhamen died a natural death, while others hold that he was murdered. Working into the information accessible it is easy for an individual to propose a theory of murder has emerged as the more relevant and admissible.
