## **PUBLICATION MANUSCRIPT: JOURNAL SELECTION INSTRUCTIONS**

You will choose a peer-reviewed, scholarly journal whose focus is appropriate to the research topic of personal interest you identified in Discussion Board Forum 2. Some journals only select articles based on completed research. Since you are only **proposing** and not conducting research for this course, the journal you select should allow submissions of literature review only articles, research proposal articles, or discussion articles. The journal must have a minimum article word count of 2,500 words. You will list an APA citation for the selected journal (you may provide the APA reference from any article for your selected journal as an example), explain how its focus is relevant to your selected research topic, and provide the submission guidelines for the journal. Review the grading rubric provided before submitting.

Submit the completed Publication Manuscript: Journal Selection by 11:59 p.m. (ET) on Sunday of Module/Week 5.
