

### Types of Biometric Systems

There are many traits that a biometric system can analyze. They fall into two distinct categories: physical characteristics and behavioral characteristics.

In this exercise, you will learn about and analyze the specific attributes that fall into each of these two broad categories by listing the advantages and disadvantages of each type of biometric method.

Complete the table:

Biometric Method	Advantages	Disadvantages
Fingerprint		
Retina		
Iris		
Hand geometry		
Facial recognition		
Typing tempo		
Signature analysis		
Voice recognition
