**NSG3036 W2 Project**  
**Research Template**  
**Name**

Cite both articles reviewed in APA style:

\*\*\*In the template, any direct quotes from the articles needs to only include the page number.

| <b>Week 2 Template</b>   | <b>Quantitative Article</b> | <b>Qualitative Article</b> |
|--|-----------------------------|----------------------------|
| Summarize the two assigned articles. In a paragraph, describe in your own words what the study was about and what the researchers found. |                             |                            |
| Identify and describe the problem for each article   |                             |                            |

|  |  |  |
|--|--|--|
| Identified the purpose statement for each article  |  |  |
| Identified hypothesis and/or research questions depending on the methodology used in the articles. |  |  |
| After analyzing, discuss each article's significance to nursing practice.                          |  |  |
| Identify two details to support the study being quantitative or qualitative                        |  |  |
