Description: w05a1 - Innovation and Competitive Analysis

Grid View

List View

Use a framework of your choice (for example, Porter's Five Forces of Competition from the textbook) to perform a competitive analysis of the company's industry.

Support your response.

Select at least two innovative and technology trends that the company or its competitors introduced. Next, examine the feasibility and expected market impact of the trends you selected. Provide a rationale for your response.

Assess the company's situation (for example, its capabilities, resources, and so on) regarding its recent development. Provide support for your response.

Give your opinion as to whether the company's organizational structure supports or impedes its ability to innovate and be a successful company. Justify your answer.

Unacceptable

0 (0.00%)

Did not submit or did not use a framework of your choice (for example, Porter's Five Forces of Competition from the textbook) to perform a competitive analysis of the company's industry. Did not submit or did not support your response.
