Scavenger Hunt

Remote Lab:

If you are completing this lab remotely, you have 2 options:

Option 1: Take a walk outside and photograph examples of ecological behaviors (minimum of 10).

Option 2: Watch a movie or TV show, and screenshot examples of ecological behaviors (minimum of 10). This could be a nature documentary (Planet Earth, Blue Planet, March of the Penguins...) or something more creative (Mean Girls, The Bachelorette, The Godfather, Friends...)

For both options, add your pictures to a PowerPoint. On each slide, describe the ecological behavior you observed.

Possible Behaviors:

- Kin selection
- Cost of behavior
- Predation costs
- Invasion behavior
- Investments in mating behavior
- Intraspecific competition
- Interspecific competition
- Mate choice
- Parental investment
- Ideal free distribution
- Resource holding potential
- Asymmetry of value
