Assignment: Organizational Structure

In this assignment, you'll fill in the corresponding structure type and example for each description.

An organizational/management structure:	Type of Structure	Company or Industry Example
...where each division has its own centralized services— for example, HR, finance and marketing.		
...that involves more than one dimension— for example, product and geography—with employees reporting to multiple managers.		
...that is appropriate for a multi-region organization that wants to localize its product or service.		
...based on the main activities that need to be performed.		
...that is appropriate when the organization's product or service needs to be tailored to specific customers.		
...designed to achieve rapid learning and adaptation to environmental changes.		
...that distributes power and authority to self-organizing groups.
