

Preparation for Final Project:

Step 1. Complete the following documentation

1. Project Team Members (Make Sure to submit a file for each person – not just 1 for the group)

Kunika Saxena

2. Are you using your Own website or using Umich Servers? Deployment (web server), Database server?

Own Website (web server)

3. Technologies – if Group decide if work will be separated by task or technology (Backend/Frontend)

Java Script, Git Hub HTML CSS

4. Theme – High Level- What is your theme. (Order processing, Blog, Student/Course, your own custom)

Travel Website

5. Website Site Map
6. Summary of functionality of each Web page (at this time)
7. Google Site Mockup.

This is to get you thinking about the final project, without too much guidelines, this will be your draft and can be modified if needed; however, questions 1 and 2 should be finalized when submitting the homework.
