# Dissection of the Urinary System of the Fetal Pig

*Fetal Pig (DryLab Plus)* (ED, CD-ROM)

---

## Advance Preparation:

## Comments and Pitfalls

## Dissection Review

1. How does the structure and distribution of the allantoic bladder of the fetal pig differ from the urinary bladder of the human (or that of the adult pig, for that matter)?

---

---

2. What differences in fetal elimination of nitrogenous wastes account for the structural differences described above?

---

---

3. How does the site of urethral emptying in the female pig differ from its termination point in the human female?

---

---
