# Dissection of the Respiratory System of the Fetal Pig

*Fetal Pig (DryLab Plus) (ED, CD-ROM)*

## Advance Preparation

## Answers to Questions

Activity 1: Identifying Respiratory Organs of the Fetal Pig (pp. 737–740)

## Dissection Review

1. Are the cartilagenous rings in the pig trachea complete or incomplete? \_\_\_\_\_
2. How does the number of lung lobes in the pig compare with the number in humans?  
\_\_\_\_\_
3. Describe the appearance of lung tissue under the dissection microscope.  
\_\_\_\_\_

4. Why did the segment of lung tissue, cut from the fetal pig's lung, *sink* when placed in water?
