

Brainstorming

You are acting as a member of the school leadership team. Your opinion is sought in the following situations.

What actions might you take to achieve greater brain-compatibility in your school either through modeling, program design, professional development, or working with others? Create your own document and provide one to two paragraphs for each cell. You may list the brain-compatibility items in bullet-point form in your response document.

Brain-compatibility	Advice/things to consider
Classroom Environment	
School Environment	
Lesson Design & Planning	
Discussion during Faculty Meetings
