Module Six Lab Worksheet Guidelines and Rubric

Overview

These labs demonstrate how logic is not always intuitive (as demonstrated by the Monty Hall problem) and how reasoning can be altered by the way questions are framed (as you will see during the Risky Decisions lab). You will also find out how we tend to reason better when problems are framed in real-world terms, but not as much with more abstract wording. Being aware of the strengths and weaknesses of human reasoning can only benefit us as we make everyday decisions.

Prompt

Complete the following labs:

- Monty Hall
- Wason Selection
- Risky Decisions

Then complete the [Module Six Lab Worksheet Template Word Document](#). Specifically, you must address the following rubric criteria:
