Criterion Feedback

I am only going to address the first part of this assignment, because that is all you needed to submit for this project. You obviously are going to be in very good shape as you move forward. We were just working on one question a week up until module seven when all five questions would be due.

I think you have a nice start to the information presented I would love to see some examples based on your understanding and interpretation of the information you reviewed for this assignment.

Needs Improvement

13.75 / 25

Shows limited depth of knowledge of the module content, indicating the module content was read but needs to be explored further

Criterion Feedback

Be sure as you move forward to thoroughly incorporate the information from our modules and textbook into each part of the assignment. That is some thing that is missing overall, so you will want to go back and edit your paper to show where you have used your interpretations from the reading and research in the course itself to connect to your ideas for each of these prompts.
