Wk 6 - Apply: Summative Assessment: Supply Chain Operations Plan [due Day 7]

Exam Content

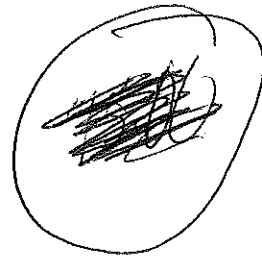

Showcase Your Skills!

Earning a minimum grade of 85% on this assessment is one of the criteria for earning the Operational Efficiency digital badge. Learn more about Business & IT badges (<https://multimedia.phoenix.edu/cms/202340304>).

This assignment is intended to help you build a supply chain plan/diagram for a new business by analyzing factors that affect sourcing, logistics, metrics, suppliers, and risk.

Create a diagram of the supply chain plan using one of the following tools:

- Excel
- PowerPoint
- Visio
- PictoGram
- PDF
- Other faculty-approved platform

Write an 875-word analysis of the supply chain. Include the following:

- Value chain and flow of structure
- Inputs
- Outputs, including customer service structure
- Inventory points and forecasting
- Sourcing activities
- Risks
- Locations
- Logistics

Cite references to support your assignment.

Format your citations according to APA guidelines.

Submit your diagram and paper.
