2-3 Planning: Looking Ahead to the Final Project

The Final Project, due in Module Seven, will be a capstone demonstration of all that you have learned in the course.

In Module Three, you will be required to submit a general description of your case study, along with the theoretical orientation that you have chosen to design your treatment plan.

In Module Five, you will be required to submit an outline of the Final Project.

For additional details, please refer to the [Final Project Guidelines and Rubric](#).
