Unit 4 Assignment Rubrics

Course: CLCS 615 9041 Cloud Services and Technologies (2262)

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Current State Analysis and Cloud Readiness Assessment	25 points **23-25 points** Provides comprehensive analysis of MediCare's infrastructure, organizational, financial, and compliance readiness. Includes detailed gap analysis with prioritized recommendations. Demonstrates deep understanding of healthcare-specific challenges. Includes professional readiness assessment scorecard.	20 points **20-22 points** Provides solid analysis of most readiness dimensions with adequate gap identification. Shows good understanding of organizational assessment methodologies. Includes basic readiness assessment tool.	15 points **17-19 points** Provides basic analysis of readiness factors but lacks depth in some areas. Gap analysis is present but may lack prioritization. Limited integration of healthcare-specific considerations.	10 points **1-16 points** Provides superficial analysis with significant gaps in readiness assessment. Missing key components or demonstrates limited understanding of assessment frameworks.	5 points **0 point** Section missing, incomplete, or demonstrates no understanding of requirements.	/ 25

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Cloud Deployment Model Analysis and Recommendations	25 points **23-25 points** Demonstrates expert understanding of all deployment models (public, private, hybrid, multi-cloud) with detailed governance implications. Provides well-justified recommendations with healthcare-specific considerations. Includes comprehensive comparison matrix and phased implementation approach.	20 points **20-22 points** Shows solid understanding of deployment models with adequate governance analysis. Provides reasonable recommendations with some healthcare considerations. Includes basic comparison tools.	15 points **17-19 points** Shows basic understanding of deployment models but limited depth in governance implications. Recommendations lack strong justification. Healthcare considerations are superficial.	10 points **1-16 points** Shows poor understanding of deployment models and governance implications. Recommendations are poorly justified or inappropriate for healthcare context.	5 points **0 point** Section missing, incomplete, or demonstrates no understanding of requirements.	/ 25

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Cloud Adoption Use Cases Development	30 points **27-30 points** Develops 4+ detailed, well-structured use cases that directly address organizational governance needs. Each use case includes comprehensive technical requirements, governance considerations, risk mitigation, and success metrics. Demonstrates innovative thinking while maintaining healthcare compliance focus.	24 points **24-26 points** Develops 4 adequate use cases with good structure and governance considerations. Most elements are present with reasonable detail. Shows understanding of healthcare requirements.	18 points **20-23 points** Develops 3-4 basic use cases with some governance considerations. Missing some required elements or lacks sufficient detail in analysis. Limited healthcare-specific focus.	12 points **1-19 points** Develops fewer than 3 use cases or provides superficial analysis. Poor understanding of governance needs and healthcare requirements. Missing key components.	6 points **0 point** Section missing, incomplete, or demonstrates no understanding of requirements.	/ 30

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Service Level Agreements and Governance Framework	25 points **23-25 points** Provides detailed SLA requirements for different system categories with specific metrics. Develops a comprehensive governance framework including committee structure, processes, and policies. Demonstrates clear understanding of SLA implications for healthcare governance.	20 points **20-22 points** Provides adequate SLA requirements and governance framework. Shows good understanding of governance implications with most elements addressed appropriately.	15 points **17-19 points** Provides basic SLA requirements and governance structure but lacks detail or depth. Limited understanding of governance implications for healthcare.	10 points **1-16 points** Provides superficial or inappropriate SLA requirements. Poor understanding of governance frameworks and their implications.	5 points **0 point** Section missing, incomplete, or demonstrates no understanding of requirements.	/ 25

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Risk Assessment and Mitigation Strategies	15 points **14-15 points** Conducts systematic risk analysis with comprehensive identification of security, operational, financial, and strategic risks. Provides detailed risk assessment matrix and innovative mitigation strategies. Includes robust business continuity planning.	12 points **12-13 points** Conducts adequate risk analysis with good risk identification and mitigation strategies. Includes basic risk assessment tools and continuity planning.	9 points **10-11 points** Conducts basic risk analysis but may miss some key risks or provide superficial mitigation strategies. Limited depth in analysis.	6 points **1-9 points** Conducts poor risk analysis with significant gaps in risk identification or inappropriate mitigation strategies.	3 points **0 point** Section missing, incomplete, or demonstrates no understanding of requirements.	/ 15

Criteria	Excellent	Proficient	Developing	Needs Improvement	Not Submitted	Criterion Score
Document Quality and Professional Presentation	5 points **5 points** Professional document structure with all required sections, proper formatting, and high-quality visual elements (3+ diagrams/tables). Excellent writing quality with proper APA citations from 6+ credible sources.	4 points **4 points** Good document structure with most required elements and adequate visual aids. Good writing quality with proper citations from adequate sources.	3 points **3 points** Basic document structure with some formatting issues. Limited visual elements and adequate writing quality. Some citation issues.	2 points **1-2 points** Poor document structure, significant formatting problems, and limited visual elements. Poor writing quality with citation errors.	1 point **0 point** Document missing, severely incomplete, or unprofessional quality.	/ 5

Total	/ 125
