## Assignment 3: DRAW

### Abstract:

Create a series of mark making tests.

### Key Terms and Concepts:

Mark Making

Texture

Value

Line Weight

### Objectives and Grading Criteria:

- The document follows the files size and name conventions.
- At least 10 layers of mark drawing are completed.
- Both a PSD and a JPG are created and uploaded.

### Directions:

1. *Go to pinterest, tumblr, or some other image agrigator and do a search for "Drawing Mark Making" Example.*
2. *In Photoshop, create a new file with the following size conventions: 8" x 8" at 300DPI, white background, rgb color space.*
3. *Lock the background layer.*
4. *Create a new Layer.*
5. *Adjust the size and color of your brush. (It should be 100% flow and opacity.)*
6. *Emulate one of the marks you see.*
7. *Name the Layer, Lock the Layer, and Hide the Layer.*
8. *Repeat steps 4-7 another 9 times.*
9. *When complete, you should have ten different layers full of marks.*
10. *Turn off all layers but the background and your favorite drawn layer.*
11. *Save as a .PSD with the following naming convention: draw\_lastname.psd. Example: draw\_fraser.psd*
12. *Save as a .jpg with the same naming convention as above.*
13. *Upload to dropbox before it is due.*
