## **PowerPoint Project Assignment # 1**

**Homework:**      **Draft Power Point due:**      **February 15, 2017**

**Project #1:**      **Final Power Point and Formal Presentation due:**      **February 27, 2017**

### **List of Suggested Topics:**

**Career Opportunities in Aviation Flight, Aviation Management, or Industrial Technology**

**Major advances in aircraft/engine design**

**The challenges of aviation flight training**

**Critical developments in the evolution of electronics design and component capability**

**Leaders in Aviation Flight, Aviation Management, or Industrial Technology**

**History of computers, integrated circuits, transistors or cell phones**

**Changes in the cost and size of electronic memory/capacity over the past twenty years**

### **Composition of presentation:**

Select a topic from the above list and narrow your topic for a short , informative presentation

Cover slide should identify: Course Name, Course Number, Presenter's Name, Date, and Title of Presentation

Body of presentation: Describe the elements listed above for your specific subject and include a table of contents or overview

Summary: Develop a good closing slide

### **PowerPoint Presentation**

Create ten to twelve power point slides outlining the concepts listed above as they apply to your, particular subject matter. Introduce graphics, photos or other visuals to highlight the subject matter.

Grading of this project will emphasize the effectiveness of each slide as to letter size, readability, composition, visual appeal and ability to convey the basic message. **Knowledge of the presenters on the subject and verbal skills during the presentation will be key elements assessed.**

### **Homework assignment**

Print the draft copy with 4 slides per page and submit in class on **February 15, 2017**. Review comments on the draft copy after it has been returned to you and change the presentation as required.

### **Presentation**

Print the final copy with 4 slides per page and submit in class on **February 27, 2017** to receive maximum points for "on-time" submittal. Save the presentation as an e-mail to yourself and on a USB storage device and be prepared to present this material during class on **February 27, 2017**.
