Assignment 2: Research Article Review Paper: Grading Criteria

Name: _____ Paper Grade/Points _____

The article review paper will be graded for a potential total of **10 points, worth 10%** of your final grade, using these guidelines:

1-2pts

Organization and structure of paper and overall clarity of writing, including spelling and grammar

0-1 pts

Paper formatted according to formatting guidelines (see syllabus). Please use APA style.

1-3 pts

An introduction and a summary/overview with key points from the article. Include some details such as constructs, hypotheses and the sample composition. Note any theories guiding the study and/or a few points from any related literature reviewed within the article

1-4 pts

Well-written, thoughtful discussion and analysis; identify any interesting points and results within the research article. Include any strengths of the article and your reaction, evaluation and/or critique of the design, methodology, analysis, etc. Offer a few final reflections or ideas in a conclusion. For example, you can discuss the overall relevance of the article and any clinical or other applications.
