Business Description:

BANKS Industries was established in 1995 by Mabel and Larry Banks.

Mrs. Banks serves as the president and CEO. Mr. Banks is the executive vice president of the company.

BANKS's customer base includes some of the largest technology companies in the world, covering computing, telecommunications, radio, and other products. Having grown from fewer than ten to over 300 employees, the company has achieved exceptional goals in production and sales.

Over the last fifteen years, BANKS' has acquired several small companies in the U.S. The latest addition to the BANKS crown is the acquisition of a new subsidiary in China, which will add to the company's expertise in a new line of personal computing devices. This is BANKS's first acquisition outside of US borders.

BANKS prides itself on the family environment it has maintained from its inception, and continues to place a great deal of importance on its most important resource—its employees.
