Timeline - The Assassination of Benazir Bhutto

Name: _____

Case Study: "The Assassination of Benazir Bhutto " (Week 13)

Instructions:

1.) For this Module, you will create a Timeline of events surrounding Benazir Bhutto's death. A key objective in creating the Timeline is to capture all the critical information. For the purposes of this exercise limit your Timeline to the day she was killed and the information that surfaced following her death that shed light on how she died.

- Review the attached file from the Defense Intelligence Agency (DIA) on Timelines to see examples of different ways to construct a timeline.

2.) After you complete your Timeline, write a one paragraph (approximately 100 words) that answers the questions "Do the duration and sequence of events suggested by the data make sense?" and "Are there data gaps?"

1.) Timeline Example:

Date/Time	Event
27-Sept-2007; Time	Event 1
27-Sept-2007; Time	Event 2
27-Sept-2007; Time	Event 3
27-Sept-2007; Time	Event 4
27-Sept-2007; Time	Event 5
27-Sept-2007; Time	Event 6
27-Sept-2007; Time	Event 7
27-Sept-2007; Time	Event 8
28-Sept-2007; Time	Event 9
28-Sept-2007; Time	Event 10

2.) One paragraph: "Do the duration and sequence of events suggested by the data make sense?" and "Are there data gaps?"
