## **Lab #6 Assignment**

In this lab, you reviewed the data security breach notification laws for your state and you assessed the scope and depth of the privacy protection rights of a citizen in your state. For this lab, you are to write a one to two-page original paper using APA format answering the following questions about breach notifications in your state.

- How does your state personal identification?
- When does your state require a notification based on a triggered risk / breach?
- What state agencies and during what time frame does your state require notification of such an offense?
- What security mechanisms should be considered as part of a breach notification in your state?
